EDUCATION

CDAC -PGD Big Data Analytics
Pune
Maharashtra
2018 – 2019

B.Tech. ECE
Rajasthan Technical University
Jaipur, RJ
2010 – 2014

SKILLS

Machine Learning

Reinforcement Learning, GAN

Python, Java, R

Big Data, Spark, Hive, Kafka

SQL (DBMS)

Mathematics (Statistics, Calculus)

Pytorch, TensorFlow

CERTIFICATION

Market Analysis Course
(Jan 2017 – March 2017)

Machine Learning, Coursera
(May 2016- June 2017)

Spark Working
(Dec 2019 – Dec 2019)

GAN with Pytorch
(May 2020 – June 2020)

professional experience

2019 - Present

Associate Data Scientist, KratinLLC, Nagpur

- Designed a Time Series Model give accuracy up to 97% used to create an integration tool of AI and SAP to maximize the workforce utilization considering all the preferences and requirements.
- Results in saving the 500 miles every week of the workforce traveling.
- This project uses Time series prediction to estimate the future demand and optimization tool to get the best combination for the assignment.
- Tools used prophet, optaplanner, Django, plotly, pandas, docker.
- Designed and implemented the warehouse for the BI and analytics.
- It saved daily 1 hr. task of the team to fetch, validate and store the data.
- This was done with Hadoop, hive, spark, hue, Apache Atlus, Apache ranger.
- Deterministic statistics of the client's patient's successful admission.

2012 - 2014

Co-Founder, WHT, Bhiwadi, RJ

- Founded WHT. It was a Logistics Firm.
- Learnt the Logistics business flow of Northern India. Firm manages complete workflow of goods for the various Industries.
